

Maths at The Bridges Federation

We aim for every pupil to have a positive attitude towards mathematics and to support them to develop their confidence. We want to ensure that we equip all our pupils with the ability to think mathematically and solve problems in a range of contexts, understanding the importance of mathematics in everyday life. We believe that mathematics should be, fun, challenging and practical for all children and not just taught in the classroom. Providing children with the opportunities to really understand how numbers work, be flexible with their methods and apply knowledge is our goal.

Pupils Voice

What will visitors see if they visit your classroom?

Daily Maths meetings in KS1 and 2
– we play games and sing songs

Maths Snack (EYFS) we have snack and
learn about number

We have an area in our classroom
dedicated to maths resources! We can
help ourselves whenever we want to use
them to help us

We have maths lessons
Monday-Thursday with
our teacher and class TA

Look at our working walls –
this has lots of examples
and new words that we've
learnt

KS2 - Look in our books –
we work hard on our
presentation and use
our own purple pens to
mark our answers

We go on Timestables
Rock Stars three times
per week to help with
our timestables – I love

Some captured maths learning from our younger learners
